

Mining OUR FUTURE

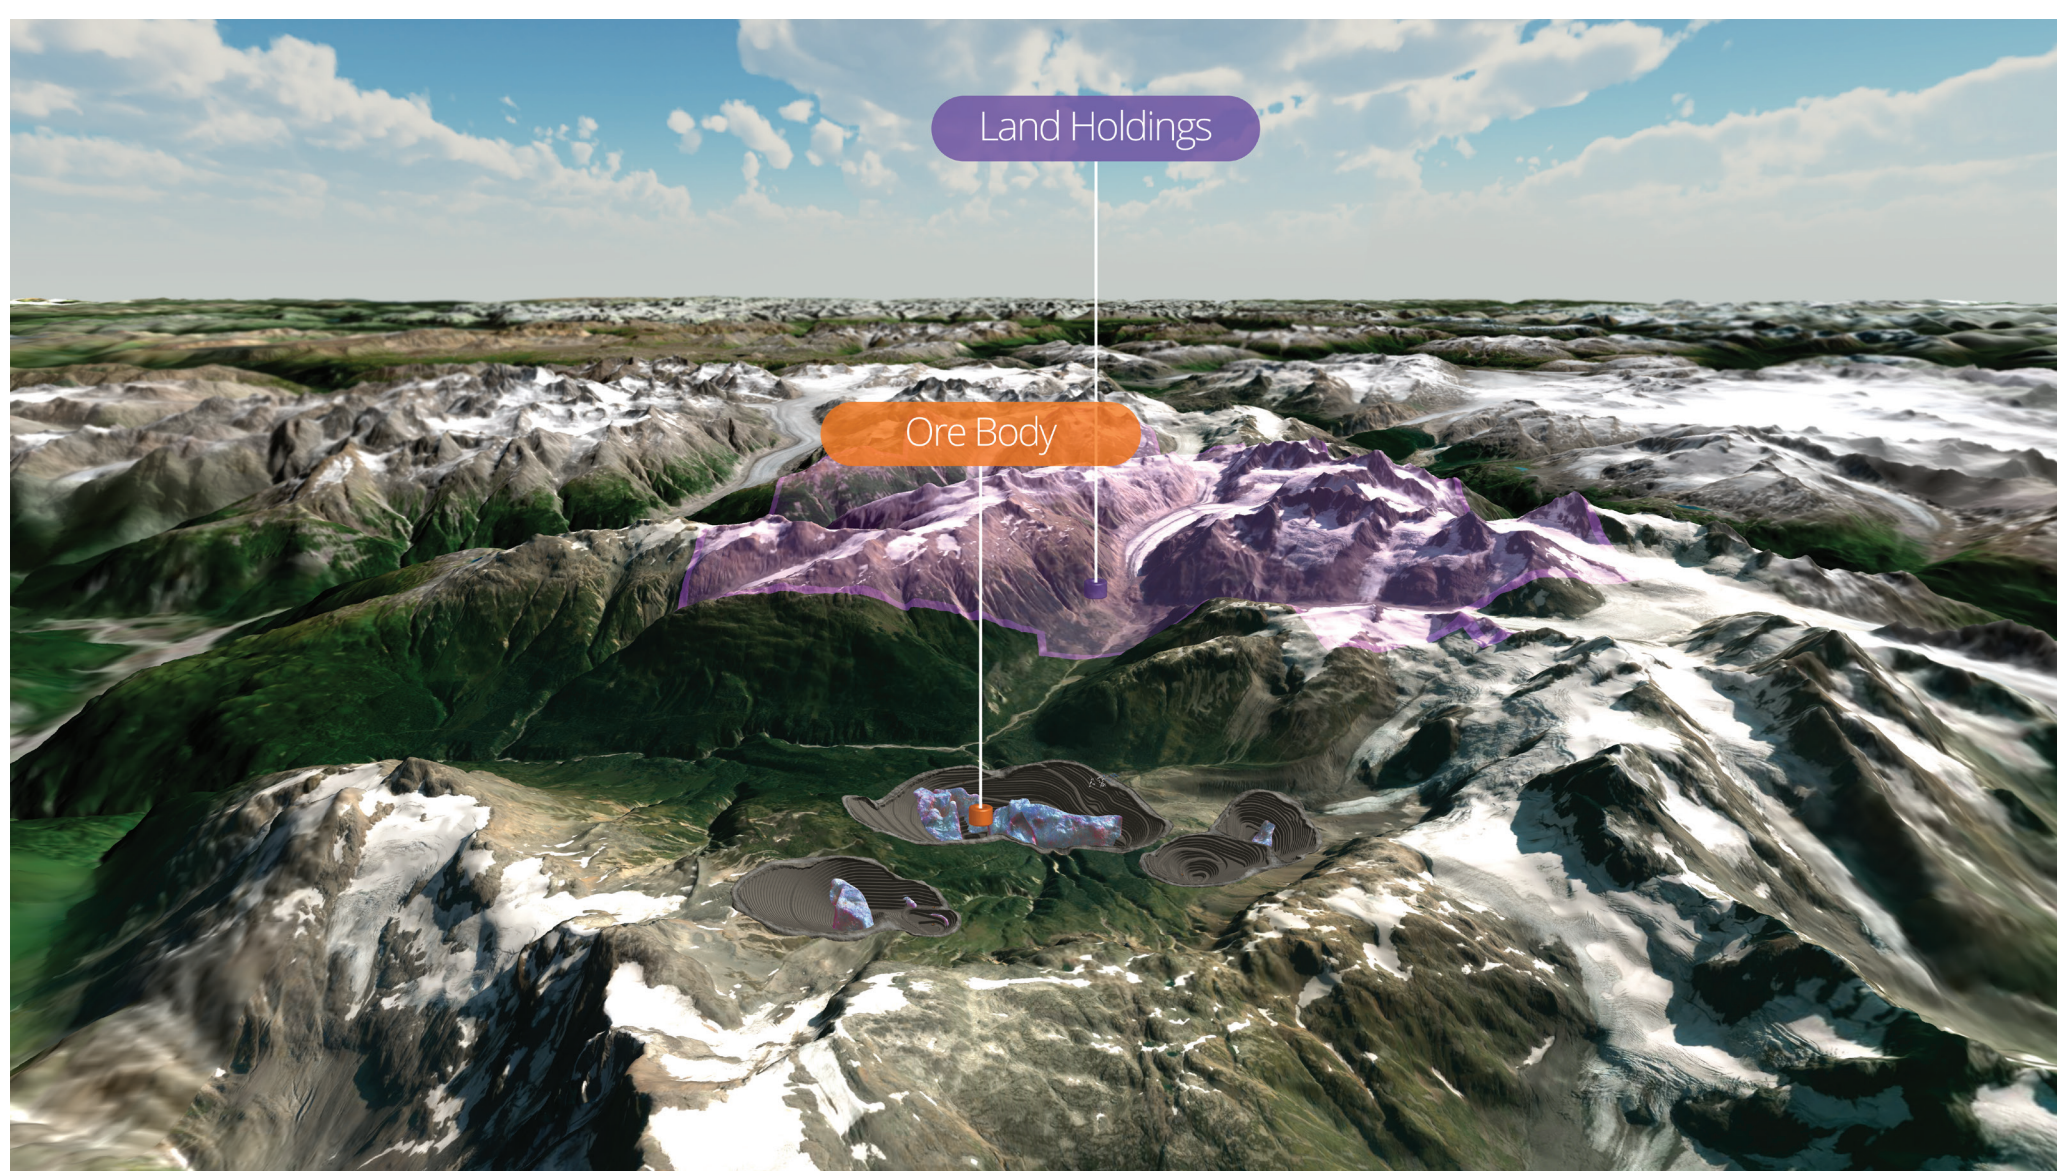

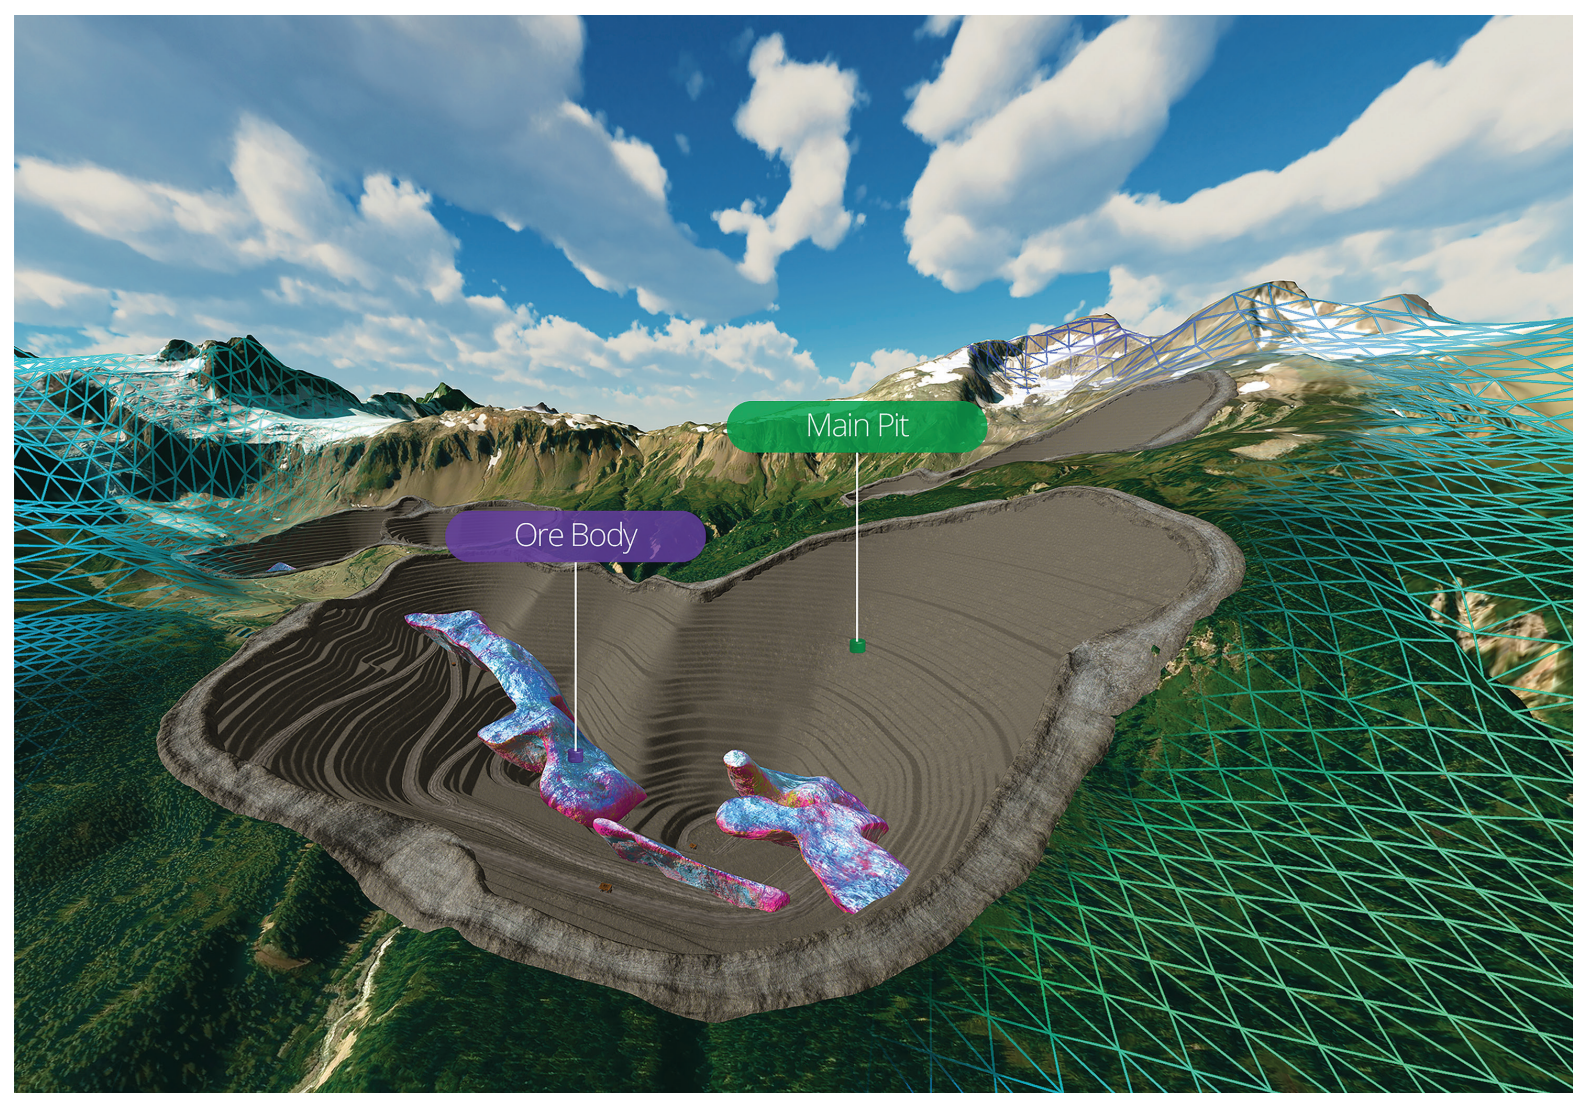

LlamaZOO Interactive

LlamaZOO Interactive creates 3D communications and digital twinning software solutions for enterprise and industry 4.0, with a focus on mining.

MineLife VR, developed by **LlamaZOO**, is a software platform that fuses complex geospatial and mine planning data into an interactive, 1:1 scale virtual reality replica of the planned, current, and future states of a mine site.

- Operating in BC **since 2014**
- Directly employs **16 people**
- Operating out of **Victoria + Vancouver, BC**
